Dear Mr. Murray:

Thank you for your correspondence. Your commitment to your people and Brother Mumia is admirable and, of course, shared by HRC.

In regards to your request for investigation we have a few follow up questions to ask and, some answers of our own.

First, SCI-Mahanoy's Superintendent Theresa DelBalso is another person to contact regarding this. If you can connect us with any loved ones or family on the outside, we can advise them on how to contact and what can be said during a conversation with Superintendent DelBalso. If you could send us their name and number and share our contact information with them, we can set up that conversation.

We are also ready and willing to contact DelBalso and others on your behalf IF we have your permission to use your name and number in those requests. We must remind you of what you undoubtedly already know, that after we place pressure on DelBalso things may get worse for you before they get better. On the other hand, conditions also may get better before they get worse. This is a decision only you and yours can make.

Second, Mumia recently had a federal judge rule in his favor that Pennsylvania DOC must administer the hep-C antiviral medication. At this junction, one must ask if our and your efforts are not better placed elsewhere. Your dedication to justice is fierce and no doubt can be useful in other manifestations of prison abuse.

We have the documents you sent to, and per your request, will send them back to you with this letter. Please forward response to the address at the top of the page with Attention: Support Committee.

In Solidarity,

Human Rights Coalition

P.S. MR. MURRAY, ENCLOSED YOU WILL FIND YOUR DOCUMENTS, AS WELL.
